

SwanTM

FLOOR LAMP

Fact Sheet

The Swan Lamp is ideal for all types of hobbies including needlework, sewing & quilting. The key feature of the Swan Lamp is bright light over a large area. The daylight LEDs provides high contrast and accurate colour matching, making it easier and less tiring to read, work and see detail clearly. The LED's last up to 50,000 hours and have very low energy consumption. A long flexible arm allows the light to be positioned exactly where it is needed. The large 13cm (5") rimless lens with 1.75X magnification is ideal for focussing on fine detail and can be removed when not required. The floorstanding version has a base with wheels for easy movement.
